Note: Market data as of the date of issuance of this report. Multiples are annualized to December year-end and are calculated as the average of multiples of each company composing the industry index

Legend: LTM (last twelve months), NM (not meaningful)

Source: CapitalIQ; estimates are based on consensus

Indices' performances are calculated on market price changes weighted by market capitalization of each company composing the index. For the USA indices, prices and market capitalisations are converted in USD where necessary. For European Developed Markets and European Emerging Markets indices, prices and market capitalisations are converted in EUR where necessary. For Online Businesses Developed Market indices, prices and market capitalisations are converted in USD where necessary.
